

WARRANTY POLICY

Feb. 2019

Carter-Scott Manufacturing Pty. Ltd., trading as Middleton Solar, guarantees all products manufactured by it to be free from any defective material or workmanship and agrees to remedy any such defect or to furnish a new part in exchange for any part of any unit of its manufacture which, under normal use and service, disclose such defect, provided the unit is delivered to our factory intact for our examination with all the transportation charges prepaid, within two (2) years from the date of dispatch to the purchaser, and providing that such an examination discloses in our judgment that it is thus defective.

Middleton Solar will extend the warranty to five (5) years if the purchaser registers the product with Middleton Solar within 6 months of purchase, and has Middleton Solar inspect and calibrate the product during the third year after purchase, with all transportation, inspection and calibration charges prepaid by the purchaser.

This warranty does not extend to any of our products which have been subjected to misuse, neglect, accident, improper installation, or to use in violation of instructions furnished by us, nor extend to units which have been repaired or altered outside our factory, nor to units used with accessories not manufactured or recommended by us.

This warranty is in lieu of all other warranties or liabilities and Middleton Solar makes no other warranty, expressed or implied. In no event will Middleton Solar be liable for consequential or resulting loss or damage, whether or not due to causes covered by this warranty.
